PROFESSIONAL SUMMARY

Though my background is cosmetology based there is a lot that I can bring from it. Having to work in a team environment and leading a team as an educator was one of the most challenging yet rewarding things I have done. This meant lesson planning, time management and paying attention to fine detail. It helped me develop my communication skills in not just speaking about a topic at length but also manage to use terminology that helped others, unfamiliar with the topic, understand without watering it down too much. As a stylist for nearly 15 years, I learned how to communicate with clients on a personal level so that they were comfortable with me in a professional atmosphere. I have always strived to learn new skills and to perfect the ones I already have.

SKILLS

Problem-solving
Front-end development
Team player
Organizational skills
Communication skills
Quick learner

Work History Summary

Cosmetology & Nail
Technology Educator

I.T.S. Academy of Beauty
